Aagam Jain

Instructional Designer | Learning Experience Designer | E-learning Developer

Delhi, India (open to remote) | +91 79065 94574 | aagamjain080@gmail.com | linkedin.com/in/aagam-jain-03264820b | Portfolio: aagam995.github.io/aagam-jain-portfolio

Professional Summary

Instructional Designer and Learning Experience Designer with 5+ years of experience designing and developing e-learning for global audiences in ESG and ethical supply chain, MedTech and BioPharma. Delivered 60+ learning resources, from microlearning explainer videos to multi-module certification pathways, built in Articulate Storyline 360, Rise and Elucidat and deployed through SCORM and xAPI on Cornerstone OnDemand. Manages multi-module course builds end to end, from scoping and SME coordination to launch. Works AI first: builds reusable generative AI prompt systems for storyboarding, runs AI-assisted localization with human review, and designs AI roleplay simulations. Uses learner analytics and support data to measure impact and decide what to build next. Working remotely with a UK based team since 2024, with stakeholders in Latin America, China and Japan.

Core Skills

- **Instructional Design:** Training needs analysis, learning objectives, curriculum design, ADDIE, adult learning principles, storyboarding, scenario-based learning, branching scenarios, microlearning, assessment and knowledge check design
- **Learning Experience Design:** Learning journey and pathway design, performance support tools and job aids, interactive simulations, visual design, accessibility (closed captions, readability, navigation)
- **E-learning Development:** Articulate Storyline 360, Articulate Rise 360, Elucidat, Adobe Captivate, JavaScript in Storyline, Vyond animation, video production
- **Learning Technology:** SCORM, xAPI (Tin Can), LRS, SCORM Cloud, Cornerstone OnDemand (CSOD) LMS administration, LMS deployment and testing, XLIFF localization

- **Generative AI:** Prompt engineering, reusable prompt systems (Claude Projects), agentic AI workflows, AI-assisted localization, AI roleplay and AI avatar simulations, AI data analysis
- **Learning Analytics:** Learning evaluation, completion and engagement reporting, xAPI interaction tracking, conversion tracking, data-led content prioritization
- **Collaboration:** SME collaboration, stakeholder management, project management, cross-functional and multicultural teams, remote working

Professional Experience

E-learning Content Creator (Instructional Design) | Sedex | London, UK (Remote) | June 2024 to Present

Global membership organization for responsible supply chains, Digital Learning team.

- Project-managed the end-to-end design and delivery of the SMETA for Service Providers learning pathway (free Basic course, six-module Premium course and auditor training) from scope to launch, coordinating SMEs, auditors and reviewers. The Basic course reached 163 learners in 28 countries at a 62.6% completion rate, and the Premium course drew 665 registrations.
- Planned and tracked concurrent course builds in Monday.com, managing scope, SME review cycles and launch dates across multiple workstreams.
- Contributed to the design and development of an on-demand, supplier-facing premium course, which generated £130,000 in revenue. Delivered 4 commercial learning products in 2026 against an annual target of 2 (200%).
- Built a reusable generative AI prompt system (Claude Projects) that produces fixed-format storyboards for a microlearning series, so each new topic needs only its content, questions and images.
- Led AI-assisted localization of multiple courses into Spanish, Chinese and Japanese using an XLIFF workflow, glossary checks and regional reviewer sign-off.
- Analyzed the customer support queries and helpdesk data with AI to set the course development roadmap, and built an agentic AI workflow that turned historical helpdesk emails into a searchable reply template library.
- Designed an AI avatar session console and a simulation feedback report for audit practice.

Instructional Design Specialist | Eduwayz Learning and Development | Delhi, India | October 2022 to June 2024

- Led end-to-end e-learning development for global clients in MedTech, BioPharma and ESG, covering training needs analysis, learning strategy, storyboarding and build in Elucidat, Articulate Storyline 360 and Rise.
- Worked with global client learning teams to analyze learning needs and recommend formats and delivery approaches suited to each audience.
- Mentored junior developers on build standards and storyboarding, and reviewed courses before client delivery.
- Supported clients with LMS administration and learner experience design.

E-learning Developer | Eduwayz Learning and Development | Delhi, India | May 2021 to October 2022

- Developed interactive e-learning modules in Articulate Storyline, Rise and Elucidat to instructional design specifications.
- Tested and troubleshot published SCORM courses across browsers, devices and LMS platforms, resolving functionality and tracking issues before release.
- Supported senior instructional designers with content preparation, visual design and storyboarding across the full development cycle.

Selected Projects

Commercial Data Primer | E-learning module | Storyline 360

- Designed a 6 minute module for vaccines commercial and analytics teams, built around an interactive isometric ecosystem map that shows where commercial data is created and what business questions it answers. aagam995.github.io/data-landscape-overview-module

Connected Marketing Course | Narrated e-learning course | Storyline 360

- Built a 20 slide, four-pillar course for pharma brand marketers, with knowledge checks answered on the framework diagram itself and a closing skills self rating. aagam995.github.io/novexa-omni-channel-marketing

Supplier Questionnaire Onboarding | Platform onboarding module | Storyline 360, video

- Created a 17 minute onboarding module for suppliers and buyers, with replica platform screens, separate audience panels and a side-by-side comparison with the questionnaire learners already know. aagam995.github.io/eiaq-module-01-introduction-to-eiaq

Launch Readiness Planner | Performance support tool | Storyline 360, custom JavaScript

- Built a guided planning tool for oncology brand teams: answers across five pillars generate a print-ready launch plan for leadership review, driven by about 260 KB of custom JavaScript beyond standard Storyline triggers. aagam995.github.io/market-shaping-planning-tool

CognoPlay | AI roleplay simulation learning platform

- Designing an AI-first "Learning OS" with separate HR, manager, learner and admin portals for conversational roleplay simulations.

Multiplayer AI Roleplay Simulations | Hackathon 2026

- Designed a concept in which several learners converse with AI-driven characters together, applied to L&D and healthcare professional training.

Education

Bachelor of Technology (B.Tech), Mechanical Engineering | Netaji Subhas University of Technology (NSUT, formerly NSIT), Delhi

Certifications

- Generative AI: Prompt Engineering Basics (2026)
- Generative AI for Project Managers Specialization, IBM and SkillUp via Coursera (October 2026). Courses: Generative AI Essentials, Prompt Engineering for Generative AI, Generative AI: Unleash Your Project Management Potential
- Project Management for Managers
- Instructional Design Foundations and Applications, University of Illinois Urbana-Champaign via Coursera

Tools and Technologies

- **Authoring:** Articulate Storyline 360, Articulate Rise 360, Elucidat, Adobe Captivate
- **LMS and standards:** Cornerstone OnDemand (CSOD), SCORM 1.2 and 2004, xAPI, LRS, SCORM Cloud
- **AI:** Claude (Chat, Projects, Cowork), AI avatar tools, prompt engineering

- **Media and design:** Vyond, Adobe After Effects, Adobe Photoshop, Adobe Illustrator, Figma
- **Productivity:** Monday.com, Miro, SharePoint, Microsoft Excel, Microsoft PowerPoint, Qualtrics
